

ROTEM® *delta*
Breakfast Symposium

A Bloodless Tour of
ROTEM-Guided Therapy
and Blood Product
Management

NYSSA-PGA Annual Meeting

Monday, December 15th 6:30am-8:30am

Ziegfeld/O'Neill Rooms, 4th Floor – Marriott Marquis New York

Targeted therapy stops the bleeding.

THROMBOELASTOMETRY

In patients exhibiting clinically significant bleeding, ROTEM® can quickly identify an underlying coagulopathy and help guide decisions toward an individualized and goal-directed approach to therapy.

Join us for our symposium as we present viscoelastic testing using pre-recorded ROTEM measurements with actual blood samples. Through the use of real-time and time-lapse video, we will provide an educational demonstration on the speed and efficacy of ROTEM hemostasis analysis. Attendees will also be able to participate in rapid assessments and the diagnosis of coagulopathies that lead to ROTEM-guided bleeding management.
