To: **Legislative Day Participants; Board of Directors, NYSSA; GLAC Members; EAC Members**
Re: **Legislative Day May 1, 2018**

Thank you for volunteering to participate in this year's Annual Legislative Day in Albany. Your involvement this year is critical despite our recent victory in defeating the NYSANA supported independent practice bill, which was incorporated in the Governor's Budget (Part H). The Budget Bill would have given nurse anesthetists independent practice via collaboration and seriously lower the standard of care. **As a result of our good work in defeating Part H of the budget, NYSANA will be pushing two alternative bills to accomplish expanded scope** and attempt to elicit sympathy from their friends in the Legislature.

The two primary bills that NYSANA will be promoting this Session to permit independent practice for nurse anesthetists are: (1) nurse anesthetist title bill: **S.1385 (Gallivan)/A.0442 (Paulin)**, and (2) nurse anesthetist collaboration bills (bills very similar to Part H of the Governor's Budget Bill): **S.3501 (Bailey) and A8007 (Gottfried)**. The NYSSA memorandums in opposition to these bills, which are highlighted below, have been substantially revised since last year. NYSSA's new focus resonated with lawmakers earlier this year to defeat Part H of the Governor's Budget Bill and can be summarized below.

Key Points:

- Defeat proposals that remove the physician anesthesiologist from the treatment team, including peri-operative assessment of a patient, preparation of an anesthetic plan, and post anesthesia care, which is the current statewide requirement that a physician anesthesiologist must either administer anesthesia or supervise a nurse anesthetist (or the operative surgeon who accepts responsibility for supervising the nurse anesthetist).
- Defeat proposals creating a two-tier anesthesia delivery system. Without a statewide uniform requirement as it currently exists, hospitals will be free to permit nurse anesthetists to administer anesthesia independently - a decision that would be based on economic considerations and would result in a two-tiered health care system.
- Defeat proposals that allow nurse anesthetists broad prescriptive writing authority - at a time when NYS is combating a prescription drug and opioid abuse crisis, it defies common sense to give over 1,240 nurse anesthetists unrestricted prescriptive authority.
- The current physician led supervision safety requirement contained in the NYS Health Code is consistent with coordinated and team-based care, including the Anesthesia Care Team, one of the most common, safest, and cost effective ways anesthesia care is delivered in NYS.
- By granting nurse anesthetists independent practice, healthcare costs will increase. Independent studies have shown that the odds of an adverse outcome are 80% higher when anesthesia is provided only by a nurse anesthetist as opposed to a physician anesthesiologist. Adverse outcomes lead to higher costs for patients in both monetary and physical terms when patients require longer hospital stays. Because nurse anesthetists are not qualified to make medical evaluations and judgments, the need in the pre- and post-anesthesia periods for additional consultations and laboratory testing by physician specialists is more likely than when a physician anesthesiologist is involved.

The memorandum entitled “Just the Facts - Answering NYSANA’s Memo in Opposition” addresses the misstatements that NYSANA documented in their memorandum in opposition to the Morelle / DeFrancisco (A1829/S4422) bill. It is imperative for you to review how NYSANA is framing to debate and prepared to “set the record straight.” Additionally, I would urge you to review the NYSANA video which was produced as part of their lobbying efforts to achieve Part H of the Governor’s Budget Bill. Go to NYSANA Facebook: <https://www.facebook.com/New-York-State-Association-of-Nurse-Anesthetists-NYSANA-102363509805285/> Then go to “videos” (listed on the left) and click on “CRNAs ARE PART OF THE SOLUTION”
